Education:

2019- 2023: PhD from the Laboratory of Agricultural Economics and Consumer Behaviour of the Department of Agriculture Crop Production and Rural Environment, University of Thessaly . Grade: Excellent

Doctoral thesis entitled «Assessing the consumers' decision-making process under the Farm to Fork integrated dimension»

2018-2020: Master's degree from the Interdepartmental Postgraduate Programme “Sustainable Management of Environmental Change and Circular Economy” of the Departments of Planning and Regional Development, Civil Engineering, and Agriculture Crop Production and Rural Environment of the University of Thessaly. GPA: 9.66 – Excellent (merit scholarship)

MSc thesis entitled “Investigation of consumer patterns for meat and dairy products derived from animals fed with genetically modified feed”

2013-2018: Degree in Agricultural Sciences, equivalent and corresponding to an integrated master, from the Department of Agriculture Crop Production and Rural Environment of the University of Thessaly, GPA: 7.58 – Very good

Diploma thesis entitled “Investigation of consumer patterns for yoghurt in the Greek market”

Teaching experience:

16/02/2026- 26/06/2026: Adjunct lecturer at the Department of Agriculture of the University of Western Macedonia, in the framework of the Act “Lifelong learning actions in Higher Education (acquisition of academic teaching experience by young scientists holding a doctorate)” (of the Programme “Human Resources and Social Cohesion”, Call Code ΕΚΠ30, prot. no. 108523/24.07.2024 (ΑΔΑ: ΨΦΦΖ469Β7Κ-Χ1Ν)), co-financed by the European Social Fund

Independent teaching of courses in the Scientific Field “Organisation and Development of Agricultural Product Markets”:

- Consumer Behaviour
- International Trade and International Economic Relations

- Cooperatives and Cooperative Entrepreneurship

29/09/2025 – 06/02/2026: Adjunct lecturer at the Department of Agriculture of the University of Western Macedonia, in the framework of the Act “Lifelong learning actions in Higher Education (acquisition of academic teaching experience by young scientists holding a doctorate)” (of the Programme “Human Resources and Social Cohesion”, Call Code EKP30, prot. no. 108523/24.07.2024 (ΑΔΑ: ΨΦΦΖ469Β7Κ-Χ1Ν)), co-financed by the European Social Fund

Independent teaching of courses in the Scientific Field “Agricultural Marketing”:

- Marketing of Agricultural Products and Food
- Rural Sociology
- Research Methodology in Social Sciences

05/03/2025- 11/07/2025: Adjunct lecturer at the Department of Agriculture of the University of Western Macedonia, in the framework of the Act “Acquisition of academic teaching experience at the University of Western Macedonia, academic year 2024-2025 (MIS 6017381)” of the Operational Programme “Human Resources and Social Cohesion 2021-2027” (code EKP30), co-financed by the European Social Fund.

Independent teaching of courses in the Scientific Field “Agricultural Economics”:

- Consumer Behaviour
- International Trade and International Economic Relations

01/10/2024 – 10/02/2025: Adjunct lecturer at the Department of Agriculture of the University of Western Macedonia, in the framework of the Act “Acquisition of academic teaching experience at the University of Western Macedonia, academic year 2024-2025 (MIS 6017381)” of the Operational Programme “Human Resources and Social Cohesion 2021-2027” (code EKP30), co-financed by the European Social Fund

Independent teaching of courses in the Scientific Field “Agricultural Marketing”:

- Marketing of Agricultural Products and Food
- Rural Sociology

01/03/2024 - 31/07/2024: Adjunct lecturer at the Department of Agriculture of the University of Western Macedonia, in the framework of the Act “Acquisition of Academic Teaching Experience by Young Scientists Holding a Doctorate” (MIS 6003868) of the Operational Programme “Human Resources and Social Cohesion 2021-2027” (code EKP07), co-financed by the European Social Fund

Independent teaching of courses in the Scientific Field “Agricultural Economics”:

- Agricultural Product Pricing
- Consumer Behaviour
- International Trade and International Economic Relations

2019 – Present: Teaching assistance in the tutorial courses “Agricultural Development” and “Principles of Agricultural Economics and Farm Business Organisation” of the Department of

Agriculture Crop Production and Rural Environment, and in the course “Rural Development – Circular Economy” of the postgraduate programme in Sustainable Management of Environmental Change and Circular Economy of the Department of Planning and Regional Development, University of Thessaly.

Research experience:

10/02/2026 – Present: Researcher in the project entitled “ProPollSoil: Understanding and managing soil health impacts to protect soil-dependent pollinators» funded by the European Union under Horizon Europe 2021-2027, with the University of Thessaly as implementing body (Project code: 101219108). <https://cordis.europa.eu/project/id/101219108>

[Main research focus: Participation in the coordination and management of the ProPollSoil project; monitoring the impacts of soil, land use and climate on soil-dependent pollinators, and assessing the impacts of soil management and contamination on pollinator health through the case-study-area approach, by integrating business models that involve governmental, academic, private and civil-society actors as well as end consumers. Coordination of the creation and operation of the case study areas (Case Study Areas) in line with the principles of the quintuple helix (Quintuple helix approach). Finally, knowledge valorisation through social engagement, communication, dissemination and exploitation, and participation in the drafting of the relevant project deliverables.]

10/02/2026 – Present: Researcher in the project entitled “GREENCOOP: Green Transition through Cooperation models» funded by the European Union under Horizon Europe 2021-2027, with the University of Thessaly as implementing body (Project code: 101182021). <https://cordis.europa.eu/project/id/101182021>

[Main research focus: Contribution to all project activities, providing specialised scientific support and ensuring that technical solutions are adapted to the real needs of agricultural production in line with consumer requirements. Participation in the modelling and optimisation of agricultural business models through participatory approaches spanning the whole value chain, including consumers. In parallel, participation in communication, dissemination and demonstration activities, transferring technical knowledge and presenting practical results. Finally, contribution to assessing the sustainability of existing and new business models involving governmental, academic, private and civil-society actors.]

08/07/2025 – Present: Researcher in the project entitled “*FOODMISSION: Engaging citizens as agents of change for sustainable food system transition with a novel gamified educational citizen science platform*», funded by the European Union under Horizon Europe 2021-2027, with the University of Thessaly as implementing body (Project code: 101181774). <https://cordis.europa.eu/project/id/101181774/it>

[Main research focus: Needs analysis and design of the learning framework for education on food security. Collection and analysis of data on current dietary habits, citizen behaviour and educational needs around sustainable nutrition. Participation in the design and production of educational material, tools and activities to be used on the project platform, and in the organisation and monitoring of the pilot tests of the digital platform in selected countries.

Contribution to evaluating the effectiveness of the interventions, citizen engagement and the platform's impact on behavioural change.]

15/04/2025 – Present: Researcher in the project entitled “*BUTTERFLY: Mainstreaming pollinator stewardship in view of cascading ecological, societal and economic impacts of pollinator decline*” funded by the European Union under Horizon Europe 2021-2027, with the University of Thessaly as implementing body (Project code: 101181930) <https://cordis.europa.eu/project/id/101181930>

[Main research focus: Estimation of the economic impacts of the butterfly as a pollinator, considering its role in biodiversity conservation, agro-economic productivity and ecosystem stability. Assessment of the impacts of biodiversity on the agricultural economy. Development of environmental governance standards for pollinator protection. Dissemination and exploitation of research results for the benefit of local communities and agricultural producers. Contribution to the establishment and development of the Living Labs, to project management and coordination, as well as to its dissemination.]

24/07/2024- 31/12/2025: Researcher in the project entitled “*GreenDriedFruits: Application of extreme temperatures for the disinfestation of dried figs, dates and raisins: sustainability in practice*” funded by the European Union under Prima in the Mediterranean area with the University of Thessaly as implementing body <https://greendriedfruits.eu/>

[Main research focus: Economic analysis of extreme temperatures in relation to the value chain, the adoption of new technologies and their use in organic agriculture – Conduct of an economic study]

17/07/2024 – Present: Researcher in the project entitled “*DIONYSUS: Operational adaptation Nexusbased systems solutions in Mediterranean*” funded by the European Union under PRIMA Nexus- Section 1, with the University of Thessaly as implementing body <https://www.dionysus-nexus.eu/>

[Main research focus: Participation in the creation of a multidimensional evaluation framework for WEFE (Water-Energy-Food-Ecosystems) innovations in the Mediterranean region, in the design of a participatory approach adapted to action panels, and in the development of a roadmap for the co-design of operational adaptation solutions and WEFE business models. Collection and integration of WEFE data and evidence into the DAHBSIM value-chain model, cross-sectoral top-down impact investigation and creation of an integrated modelling chain and sustainable business model canvas. Design and implementation of a dissemination, communication and exploitation strategy and dissemination plan, as well as scaling activities through the creation of three demonstration sites in Algeria, Tunisia and Türkiye, including the establishment of the Dionysus think tank]

10/01/2024 – Present: Researcher in the project entitled “*RestPoll: Restoring pollinator habitats across European agricultural landscapes based on multi-actor participatory approaches*” funded by the European Union under Horizon Europe 2021-2027 with the University of Thessaly as implementing body (Project code: 101082102) <https://cordis.europa.eu/project/id/101082102>

[Main research focus: Investigation of consumer behaviour and consumers' willingness to buy biodiversity-friendly products – Development of tools and actions aiming to increase public interest in the project]

1/03/2023 – Present: Researcher in the project entitled “*NATAE: Fostering agroecology transition in North Africa through multi-actor, evaluation, and networking*” funded by the European Union under Horizon Europe 2021-2027 with the University of Thessaly as implementing body (Project code: 101084647) <https://cordis.europa.eu/project/id/101084647>

[Main research focus: Estimation of consumer demand for products from agroecological farms and assessment of the social acceptance of combinations of agroecological practices by producers. Identification of opportunities in value chains; testing of innovative practices to strengthen demand for, and acceptance of, agroecological practices by producers and consumers; development and evaluation of the performance of agroecological product value chains. Identification and evaluation of the most suitable strategies for different farming systems in representative agroecological zones in North Africa. Participation in the dissemination of the project’s research results with the aim of facilitating the successful scientific and operational coordination of all project activities and their timely implementation, while ensuring fulfilment of the required administrative obligations]

26/01/2023-31/10/2025: Researcher in the project entitled “*ALLIANCE: A holistic framework in the quality Labelled food supply chain systems' management towards enhanced data Integrity and verAcity, interoperability, traNsparenCy, and tracEability*” funded by the European Union under Horizon Europe 2021-2027 with the University of Thessaly as implementing body (Project code: 101084188) <https://cordis.europa.eu/project/id/101084188>

[Main research focus: Collection and processing of consumer behaviour survey questionnaires on the degree of acceptance of traceability technologies in the agri-food chain. Practical application of the methodologies developed in the project (Life Cycle Assessment (LCA), Blockchain, supply chain management) in case studies (olives, feta cheese, honey, beans, potatoes, pasta, blueberries).]

26/03/2022- 31/12/2023: Researcher in the project entitled “*Development of an innovative monitoring system for pests of sanitary importance in food warehouses using a wireless sensor network*” [Smartsoutis- KMP6-0082293] <https://smartsoutis.gr/>

[Main research focus: Consumer behaviour research on the acceptance of technological innovations in retail]

1/08/2022- 31/12/2022: Researcher in the project entitled “*Development of an integrated system for the management and monitoring of equipment for the application of plant protection products*” [EcoPPPs- KMP-0287186] <https://www.ecoppps.site/>

[Main research focus: Assessment of the economic viability, effectiveness and acceptance of the proposed decision-making system for the application of best management practices for plant protection products]

01/03/2022-31/10/2022: Researcher in the project entitled “*Precision protection of stored animal feed against insect infestations using innovative technologies*” [PrecisionFEEDProtect: KMP6-0077613] <https://precisionfeedprotect.gr/>

[Main research focus: Investigation of public opinion on the use of alternative methods (precision phosphine applications) for the control of stored-product insects]

01/11/2019-31/07/2021: Reciprocal scholarship contract in the project with code T1EAK-

01491 and title “*Establishment of production protocols for feeding cows for milk production – CROPFEED*” with the objective of the comparative efficiency assessment of input use in crop and livestock production through the application of appropriate mathematical models and consumer behaviour research on the use of animal feed. <https://agreconlab.agr.uth.gr/nsrf-project-cropfeed/>

[Main research focus: Consumer behaviour research on the use of animal feed]

12/11/2018-15/10/2019: Researcher in the project with code T1EΔK-01491 and title “*Establishment of production protocols for animal feed adapted to the rearing of dairy cows – CROPFEED*»

01/07/2017-31/08/2017: Internship at the company “Trifyliaki Agrotiki Merimna – Grigoriou S. Athanasios”
